

QUALITY POLICY

OUR MISSION

Provide Products and Solutions to an international clientele operating in the Telecommunications, Broadcasting and all areas that require Low Voltage Electrical Panels.

To be accredited on the market as a company oriented to full customer satisfaction.

Guarantee maximum flexibility and streamlining with a level of quality / price appropriate to client necessities.

BELCO SRL is committed to ensuring safe and healthy work environments and to being a supportive and a responsible organization towards the social context of reference. BELCO SRL complies with laws and regulations on the environment, health and safety, supervising compliance of employees and collaborators.

INNOVATION AND RESEARCH

We strongly believe in the value of innovation: only a constant investment in research and development of methodologies and tools is able to create the differentiating factors necessary to offer our customers / partners consistent added value.

Innovation, differentiation, amazement create the basis for obtaining references and making us grow.

PROFESSIONALITY

We carry out our business with competence, efficiency and passion.

We work with dedication, aware that by supporting our customers we increase our professional experience, obtaining personal satisfaction and new stimuli to seize the opportunities of an evolving world.

PARTNERSHIPS

Through our enthusiasm we earn the trust of customers every day, which is not enough for us to satisfy: we want to support them in the creation of added value through effective processes and customized solutions functional to shared objectives.

With the seriousness and professionalism that distinguish us, we work with our suppliers considering them in all respects as a factor of our success.

INVOLVEMENT AND ENHANCEMENT OF HUMAN RESOURCES

The enhancement of human resources is an absolute priority, rewarded and testified by the trust and loyalty of key collaborators who boast an average stay of more than ten years.

Where possible, the company encourages the rotation of resources, ensuring the necessary balance between experienced and new young personnel.

The management model stimulates strong participation of the personnel in the different phases of the work cycle, allowing everyone to develop full awareness of their role and the added value that each one brings.

To ensure the effectiveness and efficiency of internal processes, pursue the continuous improvement of business performance and the level of satisfaction of its customers, BELCO SRL adopts an ISO 9001: 2015 certified Quality Management System.
